

## Model : AM413T-Dino-Lite Pro

- Handheld Digital Microscope
- 1.3M / Resolution 1280x1024
- 10~50X,200X Continuous Magnification
- USB 2.0 Output
- LED on/off controlled by software
- Calibration and measurement feature included

Microtouch

### Product Description

Product Number	AM413T	Magnification	10~50X, 200X Continuous
Warranty Period	1	Pixels	1.3M
Condition	New	Resolution	1280x1024
Packaging	Retail Box	Data Output	USB 2.0
Sensor	Enhanced Color CMOS	Video frame Rate	up to 30 frame-per-second
Illumination	Buit-in 8 white LEDs	Save File format	BMP, JPG, AVI
LED On/Off Function	Yes	Calibration Function	Yes
Body length	4 inches / 10.2 cm	Body Diameter	1.26 inches / 3.2cm max.
Cable length	6 feet / 180 cm	Unit weight	90(g)

### Product Applications

The AM413T handheld digital microscope is designed with a high quality 1.3 megapixel image sensor that lets you view and capture objects with the greatest of details.

This model also releases all the features in the DinoCapture software. You can now do measurements on pictures taken with the Dino-Lite, and also you now have the ability to calibrate measurements for greater accuracy.

The AM413T handheld digital microscope can view objects at various magnifications depending of distance with a max magnification of up to 200X.

The AM413T handheld digital microscope is featured with the unique MicroTouch snapshot feature. The MicroTouch (touch sensitive static sensor) feature on the handheld digital microscope gives users the option of taking a picture right from the scope itself. The MicroTouch was designed to minimize image blur while taking a picture with the microscope. Great for those moments when you need to take a picture, but having a hard time reaching the computer.

This unit provides high resolution, professional tools, ease of use, and flexibility for the user.
